25X1 9. [] Representative Albert Quie (R., Minn.) 25X1A
called and said he would appreciate our taking a look at the qualifications

[]

25X1 10. [] Miss Jardine, Personal Secretary to
Senator Daniel Inouye (D., Hawaii), called concerning my request that
the Senator address the Senior Seminar on April 17th. Miss Jardine said
the Senator would be happy to talk with a group of 15 people in his office
on the afternoon of the 17th but indicated that space limitations would 25X1A
prevent his talking with a larger group. After talking with []
of OTR, I told Miss Jardine that we would select 15 members of our
Senior Seminar to hear the Senator but, of course, would prefer to have
all 30 members of the group present if this could be arranged. It was
agreed that we would both look into possibilities along this line and be
back in touch.

25X1 11. [] George Murphy, on the staff of the
Joint Committee on Atomic Energy, called to say that he had no record
of our having sent a followup letter from the Director to the Committee
providing information on the Runge case in response to Congressman
Holifield's request to the Director's last briefing of the Joint Committee
on Atomic Energy. After checking our files, I advised Murphy that we had,
in fact, delivered such a letter on 24 March 1969 and a second letter on
4 April 1969. After double checking his records, Murphy confirmed that
this was the case.

STATOTHR

25X1 12. [] Jay Sourwine, on the staff of the Senate
Internal Security Subcommittee, talked with me after his conversation STATOTHR
with Mr. Apple about a Soviet whom Sourwine identified as []
who had been called to the Subcommittee's attention by [] Sourwine
asked if we would prefer to advise the FBI concerning [] or if it 25X1A
was all right for Sourwine to contact the Bureau directly. I told Sourwine
he should feel free to talk to the Bureau directly about this without reference
to the Agency.

25X1 4. [] In a chance encounter, Senator Margaret Chase Smith said she would appreciate an Agency situation briefing in the near future and would be in touch with us.

25X1 5. [] During a brief conversation, Senator J. W. Fulbright commented (in his usual facetious fashion) that in the current hearings on Southeast Asia he was "learning a lot of things he never knew before" including the fact that "you folks seem to be doing the work of the Lord out there."

25X1 6. [] George Murphy, Joint Committee on Atomic Energy staff, asked whether in view of the unavailability of Senator Pastore on Tuesday, 3 March, the Director's appearance could be put over until Wednesday, 4 March at 10:00 a.m. I said I would check with the Director and let him know.

25X1 7. [] Met with Frank Slatinshek, House Armed Services Committee staff, whom I briefed on the Middle East situation, developments in Laos, and recent Soviet missile tests.

25X1A Slatinshek asked some questions about what the Soviets, Japanese and Chinese Communists were doing in the field of using high-voltage electronic microscopes in the development of micro-miniaturized computers. He said he had been told recently by Dr. Fernandez Moran of the Fermi Institute at the University of Chicago, that the Soviets, Japanese and ChiComs were working intensively in this connection, using a powerful microscope "in reverse" to develop micro-miniaturized computer circuits and that this technology might be important in weapons application. Slatinshek was concerned that this might result in a major breakthrough in weaponry, particularly with regard to the ABM. I said I would consult with the experts and report back.

25X1 2. [REDACTED] George Murphy, on the staff of the Joint Committee on Atomic Energy, called and expressed interest in any information which we could provide him about the Soviet who was recently arrested in Washington state.

25X1 3. [REDACTED] Hand carried to Dorothy Fosdick, on the staff of the Senate Subcommittee on National Security and International Operations, two documents which the Director wanted to have made available to Senator Jackson. I admonished Miss Fosdick regarding the sensitivity of this material stressing it was for Senator Jackson's background use only.

25X1 4. [REDACTED] In response to her request, I left with Miss Eileen O'Neill, on the staff of Senator Peter Dominick (R., Colo.), a number of page-size maps of the Soviet Union.

In the absence of Senator Dominick and his Administrative Assistant, Charles Kendrick, I talked with Maxine Hyde, Personal Secretary to Senator Dominick, about the Senator's letter to the Director forwarding a copy of Julius Mader's announcement of his publication Where is the CIA. Miss Hyde said she would mention our conversation to the Senator and pass on our offer to talk to him personally about Mader if he wishes any further information.

25X1

4. [] I advised George Murphy, on the staff of the Joint Committee on Atomic Energy, that at the present time the Director has no commitments for March 3 through 5 which would preclude his briefing the Joint Committee on one of those days. Murphy said he planned to concentrate on March 3 as the most likely date and said he would be back in touch with us.
